Summary of the verification scheme

Name of the system	
	Name in home language
	Name in English :COC SARAWAK
Related Area	Region /Country : Sarawak/Malaysia
General overview of	Party responsible for issuing verification
verification	Name :STIDC
	Location: Sarawak
	Communication
	Outline of issuing process
	Application—Verification by STIDCIssuance of export permit by STIDCCustom
	clearancePort clearance by port authority/Sarawak River Board
	The system shall verify legality only
Scheme to check for	Definition of legality
legality at the time of	Timber exported in accordance to ordinances, orders, regulations, legislations enacted by
logging	state government of Sarawak
33 3	Relevant laws
	Forest ordinances, 1954
	Sarawak timber industry development corporation ordinance, 1973 (amendment 2006)
	The timber grading regulations, 1975 (amendment 1983)
	The Sarawak timber industry(registration)regulations, 1983(amendment 1999)
	Sarawak forestry corporation ordinance, 1995
	Details of presumed illegal activities
	Activities which contravene laws, regulations, restrictions, terms and conditions, legislations
	passed by authorities from time to time.
	Procedures for retaining and verifying the evidence
	Physical and ground inspections by relevant government agencies
	Scheme implemented by the third party and so on to ensure reliability
	ISO 9001:2000 STISC, registration of company
	ISO 9001/UKAS SFC Provision Of Security, asset protection, compliance & sustainable
	forest management
	ISO 14001/UKAS SFC Verification Land Ownership Status & Use Right, forest planning &
	operations
	ISO 9001:2000 Harwood Timber Log Endorsement, shipping administration & inspection of
	export logs
Scheme to check for	Definition of sustainability
sustainability	As stipulated in forest ordinance and forest management plan; based on ITTO guidelines
Guotamasmy	Procedures for retaining and verifying the evidence
	Procedures for retaining and verniying the evidence
	Scheme implemented by the third party and so on to ensure reliability
	ISO certified processes
Scheme of separative	Real picture of the dealings, from logging to export
custody management	As per flowchart in chart 1,attached
	Procedure for ensuring separative custody management
	Procedures in forest management plan as incorporated in licencing
	Procedures in forest management plan as incorporated in licencing Scheme implemented by the third party and so on to ensure reliability.
	Scheme implemented by the third party and so on to ensure reliability
	Scheme implemented by the third party and so on to ensure reliability Procedures that are being implemented by SFC, STIDC, HARWOOD and other relevant
	Scheme implemented by the third party and so on to ensure reliability Procedures that are being implemented by SFC, STIDC, HARWOOD and other relevant agencies in the state of Sarawak
Future Task and	Scheme implemented by the third party and so on to ensure reliability Procedures that are being implemented by SFC, STIDC, HARWOOD and other relevant agencies in the state of Sarawak Criticisms against the system and recognition of problems
Future Task and Perspectives	Scheme implemented by the third party and so on to ensure reliability Procedures that are being implemented by SFC, STIDC, HARWOOD and other relevant agencies in the state of Sarawak
	Scheme implemented by the third party and so on to ensure reliability Procedures that are being implemented by SFC, STIDC, HARWOOD and other relevant agencies in the state of Sarawak Criticisms against the system and recognition of problems
